

## **Japan Supports for Internally Displaced Persons (IDPs) through UNICEF**

The Government of Japan assists the UNICEF by providing funds of USD 2.5 million to prevent water-borne diseases and acute water diarrhea through the provision of emergency water, sanitation and hygiene services to internally displaced people (refugees within the same country) and host communities in conflict and drought-affected areas.

On March 12th, H.E. Mr. Daisuke Matsunaga, Ambassador of Japan to Ethiopia, visited Babile town, Oromia region, the planned sites for the IDPs assistance project with Ms. Gillian Mellso, the UNICEF Country Representative, both of them exchanged views with people at the sites about the current humanitarian situation.
