

Japan Supports Peace and Resilience Building in Africa through UNESCO IICBA

Since 2017, the Government of Japan supports UNIDO by providing funds for the project called “Improving Public health by Solar-powered Water Sanitation System in Ethiopia”.

On 29th November, UNIDO and Ethiopia Water Development Commission signed the project document for the project worth 100 million USD. The signing was between Ms. Aurelia Calabro, UNIDO Representative and Director of Regional Office Hub and Dr. Beshah Mogesse, Commissioner of the Water Development Commission and witnessed by Ambassador Matsunaga.

In this project, a sustainable water purifying system introduced by a Japanese company will be installed.
