

Workshop on the Japanese Garden and Tea house at the Presidential Palace

On February 4-5, 2023, a two-day workshop was held at the Japanese Garden in the Ethiopian Presidential Palace by a group of Japanese garden experts who were visiting Ethiopia from Japan. The group showed how to make bamboo fences as well as a veranda of a tea house, and explained about a tea ceremony room. They took questions from the participants and politely responded to them. About 30 people from the Presidential Office, Japan-Ethiopia Friendship Association, and Addis Ababa University participated in the workshop.
