

**Launching Ceremony for
“Promotion of Self-reliance of Refugee Camps and Host Community”
by Good Neighbors**

On 14 May 2024, the launching ceremony for the “Promotion of Self-reliance of Aw-Barre and Sheder Refugee Camps and Host Community in Somali Region” project, which is funded by the Government of Japan through Good Neighbors, was held in Jijiga, Somali Region. The event was witnessed by Mr. Younsu Kim, Country Director of Good Neighbors Ethiopia, with Ms. Tsutsumi, a representative of the Embassy of Japan.

This is a one-year project totaling approximately 100 million yen (37 million ETB) to support the self-reliance of refugees and host communities by Good Neighbors as the project implementer. The project will encourage unemployed refugees and host communities to shift from dependence on aid to economic self-reliance through capacity building in the construction industry and support for livestock.
